Monaco Construction Group Limited
5648 Burleigh Crescent SE
Calgary, Alberta, Canada
T2H 1Z8

To whom it may concern,

Re: Monaco Construction Group Limited

DIALOG (formerly Cohos Evamy Integratedesign) had the pleasure of working with Monaco Construction Group Limited during the summer of 2008, on the City Service Parkade in Calgary for our Client Manulife. The project entailed a street front façade face lift of the parkade to accommodate a future platform extension of the LRT station adjacent to the parkade, as well as to provide patrons of the parkade security for their vehicles. I personally was involved with the project working with Sam Mastromonaco and his staff to meet the deadline commitments on a very tight construction schedule.

Monaco Construction Group Limited staff, including Sam, were pleasant to work with and were proactive in facilitating the work. The net result, the project schedule was met and DIALOG was happy with the quality of workmanship.

Based on our experience on this project, we would not hesitate to recommend Monaco Construction Group Limited for other projects. We wish Sam Mastromonaco and Monaco Construction Group Limited success on future projects.

Regards,
DIALOG™
